

## Love Contract – Tech Lab

1. Any liquid bottles must remain in the designated water station. This water station is away from the computers. If students are thirsty, they need to walk over to the water station and drink there.
2. No outside food allowed.
3. Only go to websites ok'ed by the Specialist. Do not go to other log-in accounts like CIT or Admin. Students are required to visit appropriate websites at all times.
4. Absolutely no social networking access during class time.
5. Respect property—the computers and other people's files.
6. Printing is reserved for final projects and staff documents. Always ask Specialist permission to ask to print something.
7. Have fun!
8. Clean up—push in your chairs, tidy up your workspace, and take your belongings with you before leaving.
